The equated annual instalment of the loan of Rs 47,750 at 5% in 20 years comes to about Rs 4163. It is not known whether the Council will be able to meet this amount from its revenue. 2 The estimates for the work have been returned by the Sanit Engr to the Council for revision and it will take some time more to prepare revised estimates and get them sanctioned. Further, there is no prospect of the loan (Rs 31750) required in the current year being found by reappropriation. So, the whole loan required ie Rs 47,750 will have to be provided for in 1925-26 if the Council's finances are satisfactory.

In these circs, the application may be negatived so far as the current year is concerned. The finances of the Council may be examined to see if any hope can be given of the application being complied with next year, either wholly or in part.
